→ Update January 31 1900z

Team members of 3Y0J have landed on Bouvet! AB5EB, LA7GIA, WD5COV and cameraman Peter landed. It was a very difficult landing.

They will return to the boat overnight then spend approximately 10 hours working away tomorrow unloading gear on to the island. Watch the video of N2AJ and LA7GIA giving full info so far. Congrats !!

## **FT8WW Crozet Island**

### **→ update January 30**

F6EXV reports things are slower than anticipated for the extension / permission for Thierry to restart on the HF bands. As soon as it's known when, updated info will be published.

## **OJ0/LB5SH and team, Market Reef –update**

We've received a few requests regarding bands and modes, and we will certainly take those into account. Let's just say we have looked at ClubLog's stats on recorded activity from Market Reef, and will give some of the slots a well-deserved update soon.

We will soon get together for a planning meeting, where we will outline the plans and start making a proper equipment checklist.

## **Vanuatu DXpedition 2024 –update**

The planning is well underway for a group of Amateur Radio Operators (hams) to participate in a DXpedition to Efate Island, Vanuatu in the South Pacific for two weeks in October 2024 instead of the previously announced December. This will allow them to take advantage of the Southern Hemisphere springtime propagation for radio signals and to take part in the CQ WWDX Phone Contest.

Not every DXpedition for ham radio operators has to be a trip into the wilderness or to an island in a rubber raft. They have identified that the top 101 most wanted DX country has commercial airlines service, rental homes, and electrical power. In addition there are lovely beaches from which they can operate ham radios and talk to other hams from around the world. Vanuatu is 3,000 miles from Honolulu and 1,500 miles from Sydney, Australia. <https://www.dx-world.net/vanuatu-dxpedition-2024/>

## **7P8WW, Lesotho –update**

First log upload done. Yesterday evening generator shut down again, so whole night without QSOs. Today generator was repaired, hopefully will serve better.

## **CYOS Sable Island –update**

Work continues at a fast pace for the March 20-29, 2023 CY0S DXpedition. This week the team completed the fabrication of the 42-inch long anchor posts, each with galvanized eye bolts, for securing the antenna masts and the Spiderbeam antennas. The Spiderbeams will be used for supporting the low band antennas. Four additional antenna masts will be erected for the three Hygain monoband Yagi's, as well as a Cushcraft A3WS for 12/17 meters. <https://www.dx-world.net/cy0s-sable-island-dxpedition-2023/>

## **9U4WX Burundi –update**

Vlad is on his way to Burundi. At 2000z today he was at Vienna airport. He then flies to Brussels before going south to 9U.

## **IDXC 2023**

The weekend of April 23-24 will see the 74th International DX Convention held in Visalia, California. This year will see a keynote speech given by 3Y0J co-leader Ken LA7GIA. As we all know, the team recently landed on Bouvet and continue to set up stations at time of this publication. The story of this once in a lifetime DXpedition should not be missed !

If you're a DXer or interested in any aspect of Ham radio, then IDXC is the place to be. Top DX operators (and contesters) from around the world will be there. You'll match those familiar callsigns with new faces, and shake hands with the person you have had a sched with for the past 10 years but never met. If you have not already joined now is the time. [Register today!](#)
